Sir:

Transmitted herewith is a substitute "Amended Sequence Listing" written in duplicate on compact discs ("Copy 1" and "Copy 2") for the above-identified patent application as required by 37 C.F.R. § 1.821(c), and a copy of the substitute Amended Sequence Listing in computer readable form ("CRF" - on a compact disc) as required by 37 C.F.R. § 1.821(e).

The compact discs labeled "Copy 1," "Copy 2" and "CRF" are each in IBM-PC machine format and are MS-Windows operating system compatible. Each disc contains a single file named "1907.04-1 2006-11-03 NEW-SEQ-LIST (TXT) BGJ-RJB.ST25.txt,"

which was created on November 3, 2006, recorded on compact disk on November 17, 2006, and is 13 kilobytes in size.

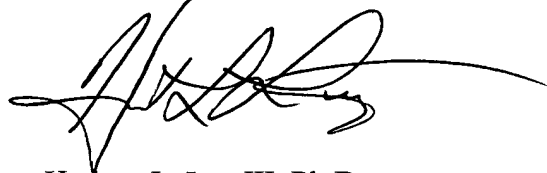

In accordance with 37 CFR 1.52(e)(4), I hereby state that the two compact discs (Copy 1 and Copy 2) are identical.

Also, as required by 37 C.F.R. § 1.821(f), I hereby state that the Sequence Listing information recorded in computer readable form is identical to the Sequence Listing written on compact discs and provided herewith.

This Amended Sequence Listing provided herewith replaces the Sequence Listing originally submitted on January 26, 2004. While this Amended Sequence Listing contains thirty-three sequences not found in the original Sequence Listing, specific support for these thirty-three sequences is provided in Figures 5 and 6 of the as-filed Application. Consequently, I hereby state that this submission, filed in accordance with 37 CFR § 1.821(g), does not introduce new matter into the Application.

Finally, please note that a Preliminary Amendment is being filed concurrently herewith in order to direct the entry of this Amended Sequence Listing into the specification.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Herbert L. Ley III', with a long horizontal flourish extending to the right.
